

Support

I am streaming for the fun of it and not to earn money. If you really want to support me, you can do that nevertheless. I will use any donations for giveaways, case openings or other investments into the stream (e.g. new equipment). Here's a list of options how you can support me.

1. PayPal, Credit/Debit card

Donating via PayPal, credit card or debit card is available through StreamLabs under the following link: <https://streamlabs.com/yorvex>

2. Skrill / Paysafe Card (various payment methods including Bitcoin)

A [Skrill](#) account can be created for free and funded using various payment options. I can't list them here because the available options vary from country to country so it depends on the country you are in. Usually you can use Bitcoins, Paysafe Cards, direct bank transfers and more. Donations using Skrill are available through StreamLabs under the following link: <https://streamlabs.com/yorvex>

3. Twitch Subscription

Amazon Prime customers can give out a Twitch Prime sub for free every month. Additionally subscriptions can be bought, simply use the Subscribe button in the top right corner above the stream or go to [my subscription page](#). One half of your subscription payment goes to me and the other half to Twitch so that with a subscription you support both me and Twitch. More infos [here](#).

4. Cheer with Bits

Bits are another option to support Twitch as well as me. Unlike subscriptions you can cheer any amount of Bits you want which I will receive 1:1 (1 Bit equals \$0.01), because you already paid the share Twitch gets from them upon buying your Bits package. More infos <https://help.twitch.tv/customer/en/portal/articles/2449458> here.

5. CS:GO items

If you donate CS:GO items to me I will mostly use them for giveaways. I might also use them myself so you can see your item on stream. Just tell me along with your donation what you wish that I should do with the item. Cases and keys are fine too and will be used for case openings. I will usually show your skin donations live on stream.
